Professional Summary

Results-driven Full Stack Software Engineer with 2+ years of experience designing scalable MERN stack (MongoDB, Express.js, React, Node.js) applications. Proven track record of leading engineering teams, architecting high-availability backend services, and shipping production features serving 10,000+ users. Strong foundation in Data Structures, Algorithms, and System Design. Passionate about clean code, performance optimization, and building impactful user-centric products at scale.

Experience

RytClick

May 2025 – Present

Senior Software Engineer / Technical Lead

Delhi, India

- Led a cross-functional team of 5+ engineers to architect and deliver scalable full-stack solutions, maintaining >99% uptime and reducing deployment time by 35%.
- Architected RESTful microservices with Node.js and Express.js, improving system throughput by 40% and enabling horizontal scaling for 10,000+ concurrent users.
- Designed and implemented real-time communication features using WebSockets, reducing latency by 30% and significantly boosting user engagement.
- Enforced CI/CD pipelines, Git workflows, code reviews, and unit testing best practices, achieving a 50% reduction in production bug reports.
- Collaborated with product managers and designers to define requirements and improve sprint velocity by 20%.
- Mentored frontend engineers in building accessible, responsive React.js UIs following WCAG standards, improving Lighthouse scores by 25 points.

DoitCreation

Apr. 2025 – Apr. 2026

Junior Software Engineer

Delhi, India

- Developed and maintained client-facing web applications using React.js, Node.js, and MongoDB, contributing to 3 successful product launches.
- Integrated third-party RESTful APIs and implemented JWT-based authentication, securing user data across multiple applications.
- Reduced page load time by 22% through code splitting, lazy loading, and image optimization in React.js applications.
- Diagnosed and resolved production-critical bugs, maintaining under 1 hour mean time to resolution (MTTR).
- Authored technical documentation, onboarding guides, and API references, improving team knowledge sharing and developer onboarding speed.

Kliff Technologies

Feb. 2025

MERN Stack Developer (Contract)

Delhi, India

- Delivered end-to-end full-stack features using MongoDB, Express.js, React.js, and Node.js for a SaaS client under a 4-week timeline.
- Implemented role-based access control (RBAC) using JWT and middleware guards, protecting sensitive user data.
- Designed scalable MongoDB schemas with optimized indexing strategies, reducing average query response times by 18%.
- Built responsive, mobile-first UI components integrated with RESTful APIs, improving cross-device user experience.

Projects

Admission Campus | Next.js, Node.js, MongoDB, REST APIs, JWT Authentication

2025

- Engineered a full-stack student admissions management platform using Next.js SSR/SSG, processing 500+ records with real-time status tracking.
- Designed RESTful APIs for CRUD operations and role-based dashboards for admins and applicants with JWT-secured routes.

Personal Portfolio | React.js, Tailwind CSS, Vercel, CI/CD

2025

- Built and deployed a fully responsive developer portfolio using React.js and Tailwind CSS, achieving Google Lighthouse score of 95+ across all categories.

Education

Indira Gandhi National Open University (IGNOU)

2023 – 2026

B.Sc. Computer Science

New Delhi, India

- Relevant Coursework: Data Structures & Algorithms, Database Management Systems (NoSQL & SQL), Object-Oriented Programming, Computer Networks, Operating Systems.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, Java, C++, PHP

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3, Responsive Design, Accessibility (WCAG)

Backend: Node.js, Express.js, RESTful APIs, Microservices Architecture, WebSockets, JWT Authentication

Databases: MongoDB, MySQL, Database Indexing & Query Optimization

DevOps & Tools: Git, GitHub, Vercel, CI/CD Pipelines, Multer, CORS, API Integration

Core Concepts: Data Structures & Algorithms, System Design, Scalable Architecture, Code Reviews, Agile/Scrum
